

Theme 2: From 1990 to 2020

Create a *personal* visual story about a European / Spanish historical theme

Step 1: Choose a topic

Choose a topic from the list in Appendix 1 that you / another person you know relates to **personally** / can talk about (this can be done alone or in a team).

Step 2: Plan your own story

Reflect on the topic you have chosen: how can you create your own personal visual story?

Two options:

- A. Create your own visual story based on your own personal experiences
- B. Interview a person that you know (friend, family, acquaintance or somebody you have not met before) that has a personal connection to this topic¹

Think about the main ideas for your story and create an outline/storyboard/mindmap. Remember that the main approach of the project is to create a combination of photographs and text for your topic, but if you come up with other creative ideas for this (poem, painting, video, storytelling etc.), feel free to include those.

Step 3: Take and collect pictures

Three options:

- A. Collect photographs from relatives, friends and acquaintances²
- B. Take your own pictures
- C. Combination of A and B

¹ It is important to get written permission from any person you interview if you include their material in your story.

² If you want to use pictures taken by the person being interviewed, you must also obtain written permission from this person

Think carefully before you take/select the picture/s and think how you can improve your storytelling with these. All the pictures used for your story **must be original** (i.e. not taken from the internet).

Tip: be creative with your pictures: you can make your own drawings or take pictures of everyday objects/things, etc.

Step 4: Create and upload your story

1. Select the most informative photos (minimum 1 minimum - maximum 5) and combine them with your outline/storyboard
2. Write the final story (maximum 250 words) you want to present and create an order for the images if you have more than one
3. Think of a catchy title for your story
4. Think of a title/description for each of the pictures
5. Write down related hashtags for the story. You always need to include the **#shiftingwalls_eu**
6. **Upload your story** either directly on the shiftingwalls_eu account or any other account using the #shiftingwalls_eu

APPENDIX 1. LIST OF TOPICS TO CHOOSE FROM

SPECIFIC TO SPAIN

1. End of "peseta" (national currency) and introduction of the Euro (2002)
2. Multilingual and multicultural Spain
3. Construction boom and consequences
